Materials

- Text: Applied Calculus (for the Managerial, Life, and Social Sciences) Ninth Edition by Soo Tan. We will cover Chapters 2 through 6, and parts of Chapter 7. An older edition of this book should be acceptable.

- Calculator: A TI-30XS or similar calculator will be helpful, but not required. A CAS (computer algebra system) such as the TI-Nspire should be avoided.

- Computer with webcam: While not required, participating in video chat is encouraged. Students being able to see/hear each other should help support interaction and the “in-person” feeling that ZOOM sections are meant to imitate. Students are required to be able to watch and listen to the lectures. The zoom lectures will be recorded for students that are unable to attend the scheduled meetings.

Homework  Homework will be assigned through Canvas, roughly one assignment per section.

Quizzes  We will have one quiz per Chapter, six total, through Canvas. These will be available for 3 business days after we finish discussing the corresponding Chapter. These quizzes will be open book/open notes, and written work will be submitted through Canvas. Work submitted must be your own. Do not use internet sites or advanced calculators. You will need a camera, smartphone, or scanner to capture an image of your work for each problem.

Grading  A total of 300 points are available:

Academic Integrity  Academic integrity is the pursuit of scholarly activity in an open, honest and responsible manner. Academic integrity is a basic guiding principle for all academic activity at The Pennsylvania State University, and all members of the University community are expected to act in accordance with this principle. Consistent with this expectation, the University’s Code of Conduct states that all students should act with personal integrity, respect other students’ dignity, rights and property, and help create and maintain an environment in which all can succeed through the fruits of their efforts.

Academic integrity includes a commitment by all members of the University community not to engage in or tolerate acts of falsification, misrepresentation or deception. Such acts of dishonesty violate the fundamental ethical principles of the University community and compromise the worth of work completed by others.

Disability Accommodation  Penn State welcomes students with disabilities into the University’s educational programs. Every Penn State campus has an office for students with disabilities. Student Disability Resources (SDR) website provides contact information for every Penn State campus (http://equity.psu.edu/sdr/disability-coordinator). For further information, please visit Student Disability Resources website (http://equity.psu.edu/sdr/).

In order to receive consideration for reasonable accommodations, you must contact the appropriate disability services office at the campus where you are officially enrolled, participate in an intake interview, and provide documentation: See documentation guidelines (http://equity.psu.edu/sdr/guidelines). If the documentation supports your request for reasonable accommodations, your campus disability services office will provide you with an accommodation letter. Please share this letter with your instructors and discuss the accommodations with them as early as possible. You must follow this process for every semester that you request accommodations.

Counseling and Psychological Services  Many students at Penn State face personal challenges or have psychological needs that may interfere with their academic progress, social development, or emotional wellbeing. The university offers a variety of confidential services to help you through difficult times, including individual and group counseling, crisis intervention, consultations, online chats, and mental health screenings. These services are provided by staff who welcome all students and embrace a philosophy respectful of clients’ cultural and religious backgrounds, and sensitive to differences in race, ability, gender identity and sexual orientation.
