

# Secondary Mathematics Noyce Scholarship

## What we do:

The Penn State Secondary Mathematics Noyce Scholarship Program is a competitive program that trains students to be successful secondary math teachers in high-needs schools. It is funded by a \$1 million National Science Foundation grant and provides scholarships to eligible students who agree to teach in a high-needs school after attaining their degree.

## Noyce Scholars receive:

- Up to \$19,000 per year for two years\*
- Specialized training in teaching in high-needs schools
- Field experience in rural and urban high-needs schools
- Multiple mentors including College of Education alumni and faculty, and current teachers
- Biweekly Noyce seminars

\*Scholarships will be awarded as forgivable loans. Scholars must commit to two years of teaching in a high-needs urban or rural school for each year of support, a total of four years.

## Who is eligible:

- Students enrolled as double-majors in mathematics and secondary mathematics education

**OR**

- Students enrolled in the mathematics and secondary mathematics education IUG program
